

Our recycling process is done in Minnesota

Green Lights Recycling, Inc has been in business since 1995. Founded in Minnesota, with corporate headquarters and recycling center in Anoka County. The company has achieved considerable growth since its inception. The company provides in-house facility inspections and tours for customers that need to confirm our high degree of environmental integrity.

Green Lights Recycling systems afford our customers the greatest amount of protection from any possible long-term liability associated with cradle-to-grave wastes. Green Lights Recycling owns and operates the recycling machinery needed to completely convert the fluorescent lamps into re-usable commodity grade goods, such as glass, metal, powder and mercury. Even the boxes and plastics used in shipping are completely recovered and recycled.

Green Lights Recycling has won numerous local and state awards for operating an exemplary recycling operation. Our client base includes numerous Fortune 500 Companies, Small, Medium and Large Businesses, Governments and Municipalities. We are confident you will agree with them, Green Lights Recycling is your one-stop-shop for Special Waste recycling needs.
